Total credits: **119 – 122 credits 120 credits required for graduation**

[§] Plan of study is a sample. Actual plan of study subject to change based on advising and student goals.

Electives - The total number of elective courses needed to meet the 120 credits for graduation will vary depending on the number of credits assigned to each course. *Students may need to take additional electives.* Students should track credits for graduation carefully and take elective credits accordingly. This plan of study assumes the **foreign language** is completed prior to admission to the university. If a language is required, students may elect to take these courses as electives.

** Q course placement is based on Math SAT score and Class Rank. Please consult with your academic advisor prior to registering for Q courses.

These courses need not be taken in the semester indicated; however it is strongly recommended that they be completed prior to the junior year. **W course requirement:** Students are required to take 2 "W" skill coded courses. MLSC 4094W satisfies the "W" in the major. Students **must** take the second "W" as a general education or elective.
